The Contemplated Retirement From a Long Business Career.

D. Heehinger, nominally Heehinger & Co., are going to retire from business - in plain words are going to sell out.

!!!!!!

Fortunately for the people this step was not contemplated until after their entire spring stock (not less than \$10,000) had been purchased and placed in their hands.

It is needless to say a word about the class of goods that will be thrown on the market. It is a potent fact, not only in our midst but in the commercial world, that few merchants buy the uniformly high class of goods that Heehinger & Co. have always bought.

!!!!!!

Our retirement sale will begin April 1st. It will take us until then to arrange our stock for the sale. Every article in the house will be sold at net cost, no more nor less.

!!!!!!

Our readers will most assuredly take advantage of this sale. It is a rare occurrence that a stock of

CLOTHING, MEN'S FURNISHINGS, MEN'S AND BOYS' FOOTWEAR

of such high character are thrown into a forced sale.

UNCLE SAM AND GREATER AMERICA

A woman fell dead in the grand stand at the New Orleans Race track after winning \$5 on a close race.—Cincinnati Enquirer.

Well, in these days of "fixing" the jockeys, isn't it enough to make any one fall dead after winning \$5?

CHIEF JUSTICE FULLER of the Supreme Court of the United States is now 66 years of age. He'll die some of these days, and it would be a good idea if Sam Poon would at once "die his claim and begin preparing his indorsements for the place.

EVERY community is cursed with obstructionists, who register their protest over a public improvement is undertaken. Their favorite method is by injunction. Some time ago the proper authorities of Covington set about the building of a Courthouse in that city, and up pops one GEORGE SULLIVAN, and one JAMES C. DOWNS with an application to Judge TAYLOR for a restraining order to prevent the city from building the much needed structure. And here is what the level headed Judge had to say to these bump shouldered moneysuckers:

"The conditions existing are such that it is well known that every day a delay adds to the cost of the city in erecting this building. The approach of the general building season is putting up prices. Those seeking to delay must protect the city from any claim of loss in this way."

"The Clerk will issue a restraining order in the terms of the prayer of the petition and amend upon the execution by plaintiffs of a bond, with surety, in the sum of \$20,000. The Clerk should require a surety resident property owners of Covington who can qualify as owners of unincumbered real estate in this city double the amount of the bond in value. The bond should be so expressed as to render each surety signing it liable for the full amount of the bond."

If other Judges would do likewise, it would probably put an end to this indiscriminate injunction business. Kickers are not noted for favoring any personal risk in order to carry out their back number ideas.

THE BUYERS' GUIDE.

THAT

Rumbling, Roaring, Resounding, Reverberating Noise you hear is only The Price Fighter knocking down prices. That cringing, quaking, terrifying noise you hear is our competitors getting their breath as we knock down the price of . . .

TOBACCO SETTERS!

One year ago today Tobacco Transplanters sold in Mayville at \$90 because The Price Fighter was not in the tobacco setter business. Today The Price Fighter enters and gently trims the price down to \$42.90. Al! the plenty is over. Surely this is enough to cause a deep and painful breath. The Price Fighter controls Mason, Bracken and Fleming counties for the latest improved tobacco setting machine—a machine that embodies all the good features of the older style machines, with none of their bad features—a machine that is guaranteed to work—a machine that is sold upon its merits. The Price Fighter has contracted for a carload of these machines for spot cash, and after trimming off all the superfluous profit finds that he can sell 'em for \$12.00 and still make his little 10 per cent. profit. He bought 'em right and is in position to undersell the world. Of course competitors will have to offer you some excuse for asking old time war prices. Some will offer the old worn out gag of a better machine, but beware! Poison! Listen! Call and look at the 1897 Tobacco Setter. Examine its improved features. If you like it haul out on your farm. It is guaranteed to work, and that settles it. That laughing, joyous, shouting noise you hear is a happy, contented people celebrating The Price Fighter's entry into the Tobacco Setter business. They have long since celebrated his entrance in the Furniture and Casket business. "You can fool some of the people all of the time; you can fool all of the people some of the time; but you can't fool all the people all the time." We have been discovered and we are happy; no one all the people.

WE SELL . . .

Malta Double-Shovel Plows at \$1.95

The war is over, but some people don't know it.

We make prices for the world on . . .

DISC HARROWS

We have received a carload of these new style up-to-date Disc Harrows that have thinner discs peculiarly hung so that they cut out all the center and level the ground instead of throwing the dirt away from the center. They leave no ridge in the center. We paid spot cash for the carload and can undersell the world. If you would just as soon have the old style we have them too as low as \$15.

STEEL ROOFING!

We have on hands two carloads of . . .

bought some time since when it was much lower and can name the lowest price on earth. We will put a crimp in the price of V-Crimp Roofing.

COUNTY COURT.

Judge Newell Has Power to Alter Time of Holding County Court.

At the last meeting of the Directors of the Board of Trade Mr. W. D. Cochran was appointed to ascertain what steps were necessary to change the time for holding the County Court from the second Monday to the first Monday in each month, so as not to conflict with the County Court Day at Carle.

The power making the change rests solely with His Honor Judge Newell.

The statutes specifically provide that the time of holding the County Court in any county may be changed by an order made by the County Judge and entered upon the records of the County Court at the last regular term held in the year next preceding the year in which the change is to be made.

It will be seen from this, however, that no change can be made until the next December term, when if Judge Newell enters the order provided for in the statute the January term of the Court may be held on the first Monday of that month.

The Best in the World.

We believe Chamberlain's Cough Remedy is the best in the world. A few weeks ago we suffered with a severe cold and a troublesome cough, and having read their advertisement in our own and other papers we purchased a bottle so as it would effect us. It cured us before the bottle was more than half used. It is the best medicine out for colds and coughs.—The Herald, Andersonville, Ind. For sale by J. Jas. Wood & Son, Druggists.

SAMOA MATTERS

A Joint High Commission to Settle the Troubles Practically Agreed Upon.

PROPOSITION COMES FROM GERMANY.

England, Germany and the United States is to be Represented by the Commissioner Each.

Commission is to Have Practically Full Authority to Settle the Trouble Without Referring its Decisions to the Governments for Approval.

WASHINGTON, April 1.—A joint high commission to settle the Samoa trouble has been practically agreed upon by the United States, British and German governments. Lord Salisbury's absence from London alone delays formal acceptance. It is believed, however, that in his absence Sir Thomas Sanderson and Mr. Villiers, who are understood to be especially familiar with the Samoan question, have approved the plan for a commission. The United States has informally expressed its approval, and the formal acceptance, it is learned from the highest quarter, will follow speedily. As the proposition emanates with Germany her approval of course, is assured. This high commission, it is felt, affords a pacific solution to the whole trouble at the moment when Samoan affairs began to look the most threatening.

The new plan has been fully gone over by Secretary Day and the British and German ambassadors here and its essential details worked out. Each nation is to be represented by one member on the commission. It is to have practically unlimited authority, without the necessity of referring its decisions back to the several governments for approval. It is felt that by conferring such complete and final authority on the high commission the danger will be obviated of any further deadlocks and delays. Still another important provision under consideration is that King Osear, of Samoa, and Sweden, shall be the umpire in case the three high commissioners should fail to reach a decision. The plan of inviting King Osear to referee a disagreement meet the approval of the British and German authorities and will doubtless be approved by the United States as a means of insuring finality of decision, though it is not known just how far this has been considered by the Washington authorities.

King Osear was agreed upon between the United States and Great Britain as a final arbitrator in connection with the proposed Anglo-American arbitration treaty, as well as in the Venezuela matter. It is also mentioned in the treaty of Berlin as the one to name a chief justice of Samoa in case the three signatory powers fail to agree on a chief justice. It is stated that led to the suggestion of his name at the present time to act as final arbitrator. The expectation is that the sittings of the commission will be in Samoa, where, for the time being, they will have complete authority over the whole range of Samoan affairs, so far as the high commission may think fit to act in order to fully restore order, and establish all affairs on a stable basis. It will require no treaty to bring the commission into existence, as the acceptance of the United States and Great Britain will complete the agreement.

It is understood that the men selected for the mission will be of high standing so as to give added weight and dignity to their findings, such, for instance, as the consul general of London, whose jurisdiction covers the whole range of Pacific affairs. He is a man of complete information on Samoa and other Pacific island subjects, as well as a man of political influence. The United States and British commissioners, it is understood, would be drawn from the same high rank with a view, however, to their information on international matters of this character rather than their political standing.

As showing that the acute phase of the Samoa question is past, Baron von Sternberg, first secretary of Germany, left here Friday night for New York, whence he sails on the 6th for London and Berlin. He has been a most active factor throughout the Samoa controversy, having made that question a special study and thus being able to render the ambassador material assistance. His influence in all times has been toward maintaining the friendly relations between the two countries and overcoming the causes of irritation. His trip to London and Berlin has no significance whatever in connection with Samoan affairs, but is entirely personal after the gravity of the affair had passed.

The Late Lieut. John Gregg.
LEAVENWORTH, Kan., April 1.—Lieut. John Gregg, killed during the advance of Gen. Hilla's brigade, graduated from the cavalry and infantry school at Ft. Leavenworth, in June, 1891. He passed a brilliant examination here for promotion to first lieutenant in 1890. He was a dashing fellow and very popular.

CESSATION OF HOSTILITIES.

It is Probable That No Further Forward Movement Will Be Made by the Philippines at Present.

WASHINGTON, April 1.—It is said at the war department that Gen. Otis will not make a campaign during the rainy season, nor is it believed that he will at present chase the Filipinos into the mountain fastnesses of Luzon. The officials consider it evident that the fight that was in Aguinaldo has been whipped out of him, and it is believed he can not hold the Filipino army together much longer. If Gen. Otis advises, the war department will approve a cessation of active hostilities or further forward movement, when little can be accomplished save chasing the Filipinos without definite results.

MANILA, April 1.—Gen. Hall's brigade advanced Friday from Marikina up the Mateo river valley almost to Montalban, driving the enemy to the hills on the north. Gregg, of the 4th infantry. Gen. Hall eventually returned to the water works.

BOILER EXPLODED

The Steamer Stella Crowded With Passengers Going to Spend Easter Is Wrecked.

SHE CRASHED ON THE CASQUET ROCKS

There Were Nearly Two Hundred Souls Aboard Nearly Half of Whom Are Believed Lost.

A Dense Fog, It Is Claimed, Was Responsible for the Disaster—Her Boilers Exploded Within Eight Minutes After Striking Upon the Rocks.

LONDON, April 1.—The steamer Stella, with tourists for the islands of Jersey and Guernsey, struck on the Casquet, a few miles off the French coast, and sank in eight minutes Thursday afternoon. There were 176 passengers on board, only 102 of whom are reported saved. Capt. Leeks went down with the ship. There is intense excitement here. The Stella was crowded with Easter holiday excursionists from London and Southampton. A thick fog prevailed and the Stella got out of her course.

When the vessel struck the Casquet the people aboard became greatly excited. The officers of the ship, aided by a few cool heads, made their way among the frightened excursionists and checked a threatened panic. The people were crowded into small boats as fast as possible, the women and children taking precedence.

There was not time to distribute life-preservers to all the passengers. Some

into the sea. When the last order was given the captain raised his two hands to the sky and stood in that position till the steamer went under. He disappeared, drawn down by the suction.

James Parton, London agent of the American line, and his wife, are among those saved.

SOUTHAMPTON, April 1.—It is now estimated that nearly 130 persons were drowned by the sinking of the Stella. SOUTHAMPTON, April 1.—The steamer Honefour returned Friday night after having made the circle of the Casquet rocks. She picked up two boats containing women's clothing, money, jewelry and an opera glass case. The last had evidently been used in bailing. Many pathetic incidents are reported. In several cases men lifted their wives and children into the boats and then perished themselves in their presence. One wife, who was thus rescued, lost her reason.

A large number of the survivors arrived here without any clothing, clad only in blankets.

Boats Collide at New Orleans.

NEW ORLEANS, April 1.—A collision occurred early Friday morning between the pilot boat Underwriter and the steamer ship Atala at Chalmette. THEY WANT PENSIONS.

More Than 200 Members of the Kth II. Units Colored Volunteers Letter to Have Their Pensions Paid.

CHICAGO, April 1.—More than 200 members of the Kth II. Units Colored Volunteers, who will be mustered out of the service next Monday, intend to file claims for pensions as compensation for physical disability received as a result of their service in Cuba. In one company all but five claim to be disabled. The men say their health has been ruined by tropical malaria and that they are in no condition to resume the positions they held prior to going to war. Some of the volunteers contracted chronic rheumatism and are unable to walk. Capt. Mainwaring of division army headquarters, says that a physical examination of the troops has been made by army surgeons, and the condition of every man will be reported to the government at Washington to prevent the payment of fraudulent claims.

"OLD GLORY."

This Benefit Entertainment Will No Doubt Be Well Patronized.

Much interest is being manifested in regard to the forthcoming production of the new comedy-drama, "Old Glory," which is now being acted by the company of Mrs. E. J. DeWitt.

The characters are all taken from the best of our amateur talent, and each one in the cast is in readiness for her respective part.

"Old Glory" is purely an American comedy-drama in five acts with a touch of sparkling wit and original humor. The plot is intensely dramatic action, rising to climaxes of most natural power. Instead of the long waits between acts, entertaining specialties will be introduced, such as "The Miss Liberty Drill," "The Dance of the Lyrines," and Miss DeWitt's entertaining fancy and burlesque dances.

Now, remember that these entertainments are to be given under the auspices of the Washington Fire Company Thursday and Friday, April 10th and 11th.

The cause is a most deserving one and you should make arrangements to attend.

Tickets will be on sale Wednesday, April 10th.

Now great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment pronounced it incurable. LEANS VOERS FROM NATURE'S GREAT HIGHWAYS

The Urania passed out last night 6 p.m. for Pomory.

The Virginia is the packet for Pittsburgh tonight.

The river is falling all above here, and is going down slowly at this point.

The Keystone State on her trip down Wednesday did the heaviest way business of the season.

The sinking of the steamer Howells Lee, at Centerville, Mo., was a fruitful source of discussion. The rivermen generally regretted the greatly exaggerated and inflated reports of the papers printed about the disastrous accident. Nobody believes that the boat's boilers exploded. One prominent stevedore, however, gave it as his opinion that the boat, in backing out of an eddy after landing, came ahead too fast, and, striking the left bank, overturned, took a dive and broke in two. The Howells Lee was a boat something like the Lizzie Hay or Stinson.

The City of Pittsburgh, which passed here yesterday morning for New Orleans, was built expressly for speed at Marietta and has three Scotch marine boilers the same as used on ocean and lake vessels. They are 100 inches in diameter by 14 feet 6 inches long, with two furnace flues of 40 inches in diameter and 30-inch return flues constructed of malleable iron tensile strength steel. She has two high pressure engines 28 1/2 inches in diameter and 18-foot stroke. The new boat has been in months in building. It is 30 feet long, 14 feet 6 inches beam, 20 feet 6 inches wide and 6-foot hold. Her wheels are 32 feet in diameter, with 14 feet of lift. She has a full fourth cabin with promenade garage, 60 staterooms in main cabin, 12 on the intermediate deck, 12 in Texas and a total number of berths of 224. She has a cleverest on board in the Texas, with all the modern adjuncts. Her cabin is a picture of loveliness. She is completely illuminated with electric light, steam heated, with sumptuous bathrooms, with hot and cold water. There is not a stove on the boat. Her chief officers are: Captain John M. As the season of the year when pneumonia, la grippe, severe throat, cough, cold, croup, bronchitis and lung troubles are to be regarded as nothing "in a few subjects" will "answer the purpose," or "be just as good" as One Minute Cough Cure. That is the one infallible remedy for all lung, throat or bronchial troubles. Insist vigorously upon having it "something else" is offered you. Henry W. Hay, adjoining Postoffice.

There is more Cancer in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. Now great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment pronounced it incurable. Science has proven Cancer to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It takes internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by druggists. Beware of cheap imitations. Hall's Family Pills are the best.
